

Dresden, October 16th 2017

GoINPHARMA GmbH, the Germany-based company that provides news, information and analysis to pharma professionals, and **Ingenious e-Brain Ltd.**, the Gurugram (India)-based company that helps clients across the globe in optimizing their cost involved in search and analytics related to Patent and Technology intelligence, have agreed on a business cooperation that is aimed to support professionals active in the healthcare sector.

"A patent- and technology development-strategy has become the cornerstone of a modern pharmaceutical company and Goinpharma with the strong network and knowledge of the market together with our long term partner Ingenious e-Brain can help managers active in the pharma sector to exploit their pipeline and develop a solid strategy for their IP assets ", says Dr. Andreas Rückemann, CEO of GoINPHARMA GmbH. "The ultimate scope of this cooperation is to deliver value to industry leaders, law firms and innovative companies across the globe interested in IP, technology and business intelligence and exploitation of their patents and the technology they have developed over the years" says Dr. Deepti Tayal Managing Director at Ingenious e-Brain.

The two companies will give regular updates about new tools and services that will be developed during the cooperation.
